Jaw Crusher

Primary crushing machines engineered for extreme resistance and high capacity.

Photo: SREW Projects equipment

Overview

The SREW Projects Jaw Crusher is a primary crusher for challenging materials. With an optimised nip angle, it breaks large boulders into manageable feed for secondary crushing stages.

How it works

Driven by a flywheel and eccentric shaft, the movable jaw plate swings periodically towards the fixed jaw plate. Material fed into the V-shaped chamber is crushed, compressed and split until it is small enough to fall through the lower discharge opening.

Applications: Primary crushing, Hard rock mining, C&D recycling, Aggregate production.
Materials: Granite, Basalt, Limestone, Quartz, River stone.

Technical specifications

Model	Feed Opening	Max Feed (mm)	Capacity (TPH)	Motor
SREW-J2415	24" x 15"	~340	20 – 60	30 kW / 40 HP
SREW-J3624	36" x 24"	~500	80 – 150	55–60 kW / 75–80 HP

Note: Capacity may vary depending on feed material, size, and moisture content.

Published prices

Item (as listed on the product page)	Price (ex-works Hyderabad)
Stone jaw crusher 20x10	₹7,56,000 + GST (₹8,92,080 incl. 18% GST)
Grease type jaw crusher 24x15	₹8,50,000 + GST (₹10,03,000 incl. 18% GST)
Jaw crusher 30x20	₹12,50,000 + GST (₹14,75,000 incl. 18% GST)
European type jaw crusher 30x18	₹13,50,000 + GST (₹15,93,000 incl. 18% GST)
European type jaw crusher 36x24	₹16,50,000 + GST (₹19,47,000 incl. 18% GST)
Double toggle jaw crusher 36x24 / 42x30	₹35,00,000 + GST (₹41,30,000 incl. 18% GST)

Prices + GST, ex-works Hyderabad, as published on the product page.

Features and benefits

- Deep V-shaped crushing cavity
- High manganese steel jaw plates
- Heavy-duty cast steel frame
- Large reduction ratio for breaking big boulders

Customisation options

- Customisable to project needs (as stated on the product page)

Maintenance

- Easy wedge discharge adjustment for quick closed-side-setting (CSS) changes
